

MasterMover®

Danmark Electric Tug Solutions

SM100+ SS

Smart Mover

**Stainless Steel Electric
Power Tugger | SM100+
SS**

The SmartMover pedestrian operated tug is a versatile machine for moving loads in many different manufacturing processes. This frequently includes environments that require a specific level of cleanliness or where the machine needs to be corrosion resistant. For this reason the SmartMover is also available in 316 grade stainless steel as the SM100+ SS. This is often used by food processing and pharmaceutical companies to remove the risk of injury caused by manual handling of heavy loads. The SmartMover is a compact machine that can pull loads up to 1,200 kg making it ideal for moving trolleys and mixing vessels in confined spaces that would otherwise be moved by hand.

SmartMover SM100+ Stainless Steel

Industries

Suitable for use in a wide range of applications and sectors

Food and Beverage

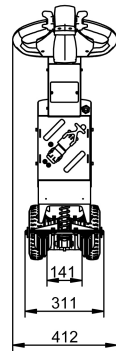

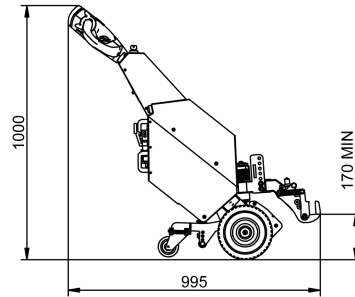

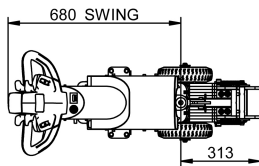

Chemical

Key Benefits

1 year full guarantee

- Avoid manual handling injury risk
- Can move multiple trolleys
- Ideal for mixing vessels or vats
- Corrosion resistance for hygiene
- Push button connection to load
- Easy to use
- No operator licence required

Product Dimensions

Safety Features

See our website for full technical details

Anti-crush button

Warning horn

Support wheels for pedestrian operator comfort

MaxLoadWeight

See our website for full technical details

Castors

Up to 1,200 kg*

Rails

Up to 4,800 kg*

*"Maximum load weight" is only a recommendation that we arrive at by estimating rolling resistance. Your environment and wheel type may affect this figure which is why we carry out a detailed technical evaluation on every project. All of our calculations include a "safe work load" factor to ensure safe operation in all circumstances.

Identification

Product code	SM100+ SS
Recommended load weight - Castors	1200 kg
Recommended load weight - Rails	4800 kg
Machine weight including battery	87 kg
Drive type	Electric DC
Parking brake	Electromagnetic
Drive wheel type	Puncture-proof, non-marking
Drive motor power	2 x 0.22 kW
Controller type	110 DC Permanent
Variable machine speed	0.1 km/h - 5 km/h

Battery options

Battery pack - sealed - 22Ah 24V - fixed
Battery pack - sealed - 22Ah 24V - interchangeable

Charging options

Charger - external - 5A 24V - 85V-265V
Charger - internal - 3A 24V - 110V-240V

Male coupling options

Coupling - hydraulic - 50mm x 25mm (A frame)
--

Female coupling options

Coupling - adaptor - 50mm x 25mm - straight
Coupling - adaptor - 50mm x 25mm - angled
